

Strengthen your Employee Experience!

WHO WE ARE:

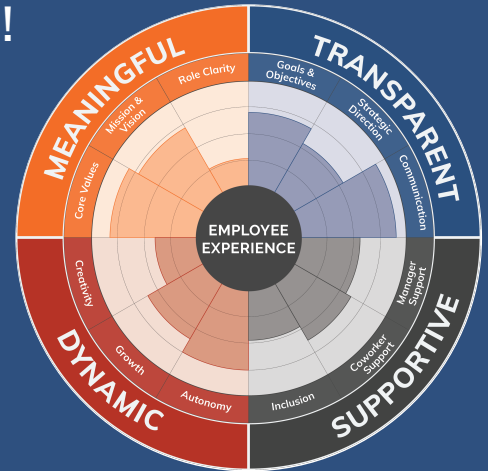

Realize Strategies is an award-winning B Corp, a co-operative with non-profit members, and an organizational and human capital development firm. Most importantly, we believe people drive purpose. We work with organizations that want to make meaningful differences in their communities. That all starts with people.

OUR RESEARCH PROJECT:

From the ongoing “Great Resignation” to dangerously high staff burnout rates and more, the global pandemic has caused a massive disruption in workplaces around the world. We’re conducting a BC-wide study to assess the employee experiences across all industry sectors. We want to drive change in our communities and we need to start with our people.

Participate at a rate that works for your organization, gain insights into the experience of your employees and how to strengthen it, and let your employees’ experiences contribute to research that will help us strengthen all our workplaces, engage our people, and provide even better support and services to our communities.

The workplace factors we measure through our Realize Employee Experience Framework indicate how meaningful, transparent, supportive, and dynamic the employee experience is and how these factors drive employee states of engagement, satisfaction, job anxiety, and burnout.

WAYS TO PARTICIPATE:

*Prices do not include taxes; 10% Non-Profit discount available at all levels

	Contributor (Free)	Bronze (\$590)	Silver (\$990)	Gold (\$2,790)	Platinum (\$9,890)
